

RODRIGO PACHECO PRESS CONFERENCE

It was all very fast, an incredible emotion, the truth more than anything to see how the Mexican public supported me from point one to the last point, how that experience felt from the court and I am very happy to achieve something so great at home and very grateful to everyone.

You had many moments of pressure during the game, what was going through your head every time you had to get things right because if you didn't, you would go out?

Well, I just did what I had to do, the truth is that I felt a lot of nerves but already at that stage of the match I was doing things right, I knew that if I wasn't aggressive I was going to lose, so that kept me calm trying to be the best version of me and not thinking about things on the outside, so today I gave the best I could and that helped me a lot.

Hello Rodrigo, Arturo Sanguino from Asir Sports,

I wanted to ask you what's new in your tennis? Because today we saw with a different maturity as I mentioned to my teammates, there were moments during the match where Bublik did his thing and put you on the ropes but you were able to get back on track,

What is different about Rodri Pacheco for this season?

I think that all last year I faced very difficult moments, defeats and I don't know if I should have lost or not, but they hurt me a lot but I understood that tennis is to give every day the best version of you, it's the only way to understand that defeats are part of and more victories will probably come, but in tennis that's how it is. We can't win every week and nobody wins every week, so you have to understand that part and just give every match the best you can and that makes me be very calm, I don't know if tomorrow I will win or not, but the only thing I know is that I will go out to give the best version of me and this will help me to face every match in the best way.
