

I feel great, I'm a little tired, it's difficult to play here. It's very hot and humid, the balls are very slow, the court too, so the rallies have been very long and exhausting, but I feel good, I played a very good match today after a very long first set.

Luckily, I didn't lose any sets, I played very well. Now I have to focus on the semifinal, which will undoubtedly be very difficult against a very tough opponent. I played against Terence Atmane last week and against Kecmanovic three or four years ago, so I have to focus on tomorrow's match to play well.

Tomorrow I hope to get the win, I hope it will be like today, playing like I am, like I play. I think I'm enjoying the moment, I'm playing very well and that's why I hope to react and play another incredible match.

The first set was a battle and I was lucky in the tiebreak. Then I focused on winning the match as quickly as possible, that was the key to winning. I needed to spend less time on the court.
